3. SUMMARY OF THE COMPANY'S BUSINESS

3.1 Principal businesses

The Group is dedicated to the provision of ICT products and solutions that satisfy the needs of customers, integrating design, development, production, sales and services with a special focus on carriers' networks, government and corporate business and consumer business. There was no significant change to the principal businesses of the Group during the year.

The carriers' network is focused on meeting carriers' requirements in network evolution with the provision of wireless access, wireline access, bearer networks, core networks, telecommunication software systems and services and other innovative technologies and product solutions.

The government and corporate business is focused on meeting requirements of government and corporate clients, providing informatization solutions for the government and corporations through the application of products such as communications networks, IOT, big data and cloud computing.

The consumer business is focused on bringing experience in smart devices to customers while also catering to the requirements of industry clients through the development, production and sales of products such as smart phones, mobile data terminals, home information terminals and innovative fusion terminals, as well as the provision of related software application and value-added services.

3.2 The industry in which we operate

The Company is a leading provider of integrated communication and information solutions in the world market, providing innovative technology and product solutions to customers in numerous countries and regions around the world.

The Group owns complete end-to-end products and integrated solutions in the telecommunications industry. Through a complete range of “wireless, wireline, cloud computing and terminal” products, we have the flexibility to fulfil differentiated requirements and demands for fast innovation on the part of different customers around the world.

In future, the Group will continue to focus on mainstream markets and products, enhancing customer’s satisfaction as well as market share in an ongoing effort and constantly strengthening its product competitiveness through persistent endeavours in proprietary innovation of core technologies, while forging closer cooperation with partners with a more open-minded approach to build a mutually beneficial industrial chain and embrace together the brilliant and best new era of “mobile smart interconnection of all things”.

4. HIGHLIGHTS OF ACCOUNTING DATA AND FINANCIAL INDICATORS

Statement on retrospective adjustments to or restated accounting data of the previous year by the Company because of changes in accounting policies or for the rectification of accounting errors

PRC ASBEs

On 7 December 2018, the PRC Ministry of Finance (“MOF”) issued the revised “ASBE 21 — Leases” (“New ASBE on Leases”). Enterprises listed in both domestic and overseas markets were required to adopt the New ASBE on Leases with effect from 1 January 2019. The Group has modified its accounting policies in accordance with the provisions of the aforesaid accounting standard.

In accordance with relevant convergence provisions under the New ASBE on Leases, the Group has elected not to reassess whether contracts subsisting prior to 1 January 2019 are lease contracts or contracts containing leases. As a lessee, the Group has elected to adopt a modified convergence treatment of retrospective adjustment. The cumulative effect from the first implementation of the New ASBE on Leases has been recognised by adjusting the opening balance of “Rights of use assets” and “Lease liabilities” in the financial statements as at 1 January 2019, while other items in the balance sheet have not been affected. No retrospective adjustments have been made to the comparative statements for the same period last year.

For operating leases subsisting prior to 1 January 2019, the Group as lessee has measured lease liabilities on 1 January 2019 based on remaining lease payments discounted to present value using the incremental borrowing rate for the Group. Assets comprising rights of use have been recognised as the amount of lease liabilities adjusted for rental prepayments as necessary. The Group has adopted the simplified treatment of recognising leases ending within 12 months after 1 January 2019 as short-term leases. Based on detailed evaluation of the impact of the

adoption of the New ASBE on Leases, assets comprising rights of use with an amount of RMB952,264,000 and lease liabilities amounting to RMB952,264,000 have been recognised for the Group, while assets comprising rights of use with an amount of RMB660,822,000 and lease liabilities amounting to RMB660,822,000 have been recognised for the Company as at 1 January 2019.

In April 2019, the MOF promulgated the “Notice on the Revision and Publication of the 2019 General Corporate Financial Reporting Format” (the “New Reporting Format”) and at the same time annulled the “Notice on the Revision and Publication of the 2018 General Corporate Financial Reporting Format” promulgated in June 2018. The Company has amended its financial reporting format in accordance with pertinent requirements. The previous “Bills receivable and trade receivables” shall be segregated into “Bills receivable” and “Trade receivables”; bills receivable and trade receivable at fair value through other comprehensive income shall be included under “Receivable financing”. The Company accounted for bills receivable at fair value through other comprehensive income previously accounted for under “Other current assets” under “Receivable financing”. The previous “Bills payable and trade payables” was segregated into “Bills payable” and “Trade payables”. The portion of “Deferred income” with an amortisation period of one year or less and expected to be amortised within a period of one year or less shall not be classified as current liabilities. “Deferred income” in current liabilities was consolidated with the “Deferred income” under non-current liabilities. Gain or loss arising from the derecognition of financial assets at amortised cost as a result of transfers is included under “Gain from derecognition of financial assets at amortised cost”. In accordance with “ASBE 30 — Presentation of Financial Statements”, the presentation of current financial statements should contain the comparative data of at least the previous comparable accounting period for all presented items. In the event of any change in the items presented in the financial statements, adjustments according to the current presentation requirements should be made at least to the data of the comparable period. The Group has made adjustments to the comparable data on “Bills receivable”, “Trade receivables”, “Receivable financing”, “Bills payable”, “Trade payables”, “Deferred income”, “Investment income”, “Finance costs”, “Cash payments for investment” and “Cash payments for dividend distribution or interest repayment”.

HKFRSs

In 2018, the Hong Kong Institute of Certified Public Accountants announced HKFRS 16 LEASES (the “New HKFRS on Leases”) to be implemented as from 1 January 2019.

In accordance with the New HKFRS on Leases, the Group has revised the previous lease accounting policy. The details and impact are the same as described in the above in relation to PRC ASBEs. The Group has made adjustments to the presentation of financial statements prepared under HKFRSs.

The implementation of the aforesaid New ASBE on Leases and the New Reporting Format has had no material impact on the Group's consolidated financial reports.

7. REPORT OF THE BOARD OF DIRECTORS

7.1 Business review for 2019

(1) Overview of the domestic telecommunications industry for 2019

The domestic telecommunication industry sustained stable development in 2019. According to the data published by the Ministry of Industry and Information Technology of the PRC, the domestic telecommunications sector reported revenue of RMB1,310 billion for 2019, representing year-on-year growth of 0.8%, while the total volume of telecommunication service increased by 18.5%, year-on-year, underpinned by exponential growth in data volume as the mobile internet business reported a 71.6% growth compared to the previous year ^{Note}. The building of 5G infrastructure was expedited, as 2019 marked the commencement of commercial 5G application in China with the official launch taking place in June 2019. By the end of 2019, 130,000 5G base stations had been built across the country, while a wide array of 5G terminal models had also been launched.

Note: Data derived from the “2019 Statistical Communique on the Telecom Industry” published by the Ministry of Industry and Information Technology of the PRC.

(2) Overview of the global telecommunications industry for 2019

The global telecommunications industry sustained growth amidst stable development in terms of business revenue and investment, as investments remained focused on the construction of 4G networks. According to the statistics of GSA, there were 141 carriers building 4G networks globally in 2019. In the meantime, the construction of 5G networks was also kicking off across the globe. As at the end of 2019, over 60 carriers from more than 30 countries and regions had started their 5G network deployment, with Korea leading the way in global 5G development following ferocious growth as the first country to launch commercial-scale 5G services. As the commercial application of 5G continued to gain pace, the global telecommunication industry is expected to embrace a new cycle of investment in the end-to-end industry chain of “chip, component, network, terminal and B2S”, which will usher in a new phase of thriving development for the sector.

(3) Operating results of the Group for 2019

A. By market

The domestic market

For the year, the Group’s operating revenue from the domestic market amounted to RMB58.217 billion, accounting for 64.16% of the Group’s overall operating revenue. The Group persisted in the implementation of a prudent business strategy while exploring new opportunities for growth, as it continued to report revenue growth

coupled with firm increase in market shares by actively participating in the 4G, 5G and optical network construction and technological evolution of carriers, with a view to seizing opportunities presented by the technological revolution on the back of its technological prowess and product competitiveness developed over the years.

The international market

For the year, the Group's operating revenue from the international market amounted to RMB32.520 billion, accounting for 35.84% of the Group's overall operating revenue. The Group persisted in the globalisation strategy with a consistent focus on the carriers of populous nations and leading multinational carriers, as it reported continuous growth in global market shares for major communication network equipment such as wireless access, wireline access, optical communication and core network. In the meantime, we seized the opportune timing for 5G development to complete the commercial deployment of 5G networks for overseas carriers in an ongoing effort to enhance customer satisfaction.

B. By business segment

For the year, the Group's operating revenue for carriers' networks, government and corporate business and consumer business amounted to RMB66.585 billion, RMB9.155 billion and RMB14.997 billion, respectively.

Carriers' network

In 2019, the Group's competitiveness in the major product categories of the carriers' network segment was further enhanced, as it reported notable breakthroughs in the international as well as domestic markets. According to the statistics of Global Data, a consulting agency, the Group is well within the leaders' quadrant in terms of products such as 5G RAN, core network and transmission.

In connection with wireless products, the Group continued to play a pivotal role in the innovation of 5G technologies and applications, as it embarked on 5G cooperation with more than 70 carriers and 300 corporate clients globally as a first-quadrant player in terms of 5G industrialisation and introduced the commercial application of 7nm core chip for 5G. In connection with wireline products, the marketing of our proprietary specialised core chip featuring high integration density, high performance and low power consumption has significantly enhanced our competitiveness in wireline products, contributing to a second-place global ranking in terms of the aggregate shipment volume for PON, FTTx and 100G optical transmission networks. In connection with video and energy products, the Group offered a full range of products, such as video conference, video IOT and cloud computer, on the back of its technologies in video encoding/decoding, access, transmission and storage, which will form a growth niche for the carriers' network business in the imminent 5G era.

Government and corporate business

The Group is well-trusted by clients in the government and corporate business, having been involved in the segment for over a decade with in-depth development of the four traditional key market sectors of energy, transportation, government affair and finance. The “Double Hundred and Double Thousand Programme” (referring to China’s Top 100 cities in GDP and Top 1,000 highly-digitalised districts coupled with its Top 100 companies and Top 1,000 high-digitalised enterprises) announced in June 2019 to facilitate digital transformation for customers through the provision of customised industry solutions has delivered positive results. Core products developed by the Group, such as servers, video, digital communication, database and operating system, have also enjoyed extensive applications. Our distributed database for core businesses of large banks went online officially, as the scope of application for our proprietary operating system continued to expand.

Consumer business

The Group’s consumer business was focused on handset, data card, vehicle terminal, home information terminal and fixed network broadband terminal. The handset business was focused on the 5G terminal in an active effort to explore the domestic and international carrier and consumer markets. We have been a consistent global leader in home information terminal and fixed network broadband terminal businesses, thanks to our formidable strengths in R&D, customisation and delivery and longstanding intensive cooperation with upstream component manufacturers and downstream carriers along the industry chain.

For financial results of the year analysed by major financial indicators adopted by the Group, please refer to section headed “7.2 Discussion and Analysis of Operations under PRC ASBEs” and section headed “7.3 Management Discussion and Analysis under HKFRSs” in this announcement.

For details of the Group’s environmental policy and performance of corporate social responsibilities, please refer to the section headed “Material Matters (XXV) Performance of corporate social responsibility by the Company” in the Annual Report.

7.2 Discussion and Analysis of Operations under PRC ASBEs

The financial data below are extracted from the Group’s audited financial statements prepared in accordance with PRC ASBEs. The following discussion and analysis should be read in conjunction with the Group’s financial statements audited by Ernst & Young Hua Ming LLP and the accompanying notes thereto set out in the Annual Report.

7.2.2 Statement on substantial changes in the Group's principal business and its structure, profit mix and profitability of the principal business during the year

- (1) There was no substantial change in the principal business and its structure during the year as compared to the previous year.

- (2) Changes in the profit mix during the year as compared to the previous year are set out as follows:

The Group's operating profit for 2019 amounted to RMB7,552.2 million, representing year-on-year increase of 1,334.02% which reflected mainly operating losses and loss provisions for the same period last year arising from the matter described in the "INSIDE INFORMATION ANNOUNCEMENT" published by the Company on 9 May 2018. Expenses for the period amounted to RMB26,155.4 million, increasing by 10.82%, year-on-year, and reflecting the increase in legal expenses and interest expenses; investment income amounted to RMB249.4 million, an increase by 1,067.03% as compared to the same period last year reflecting mainly the increase in investment income from the disposal of equities in listed companies during the period by the subsidiary fund partnerships under Shenzhen ZTE Capital Management Company Limited; net non-operating income and expenses amounted to RMB-390.5 million, representing year-on-year increase of 94.20%, which was attributable mainly to the payment for the same period last year of the USD1 billion penalty described in the "INSIDE INFORMATION ANNOUNCEMENT AND RESUMPTION OF TRADING" published by the Company on 12 June 2018.

- (3) Changes in the profitability (gross profit margin) of the principal business during the year as compared to the previous year are set out as follows:

The Group's gross profit margin for 2019 was 37.17%, improving by 4.26 percentage points compared to the same period last year. This was mainly attributable to the growth in operating revenue from carriers' networks, which commanded a higher gross profit margin, as a percentage of our total revenue, as well as to the higher gross profit margin of carriers' networks.

7.3 Management Discussion and Analysis under HKFRSs

Consumer business	2,457.0	16.4%	2,192.1	11.4%
Total	31,858.6	35.1%	26,874.9	31.4%

Cost of sales of the Group for 2019 increased by 0.4%, year-on-year, to RMB58,878.0 million. The Group's overall gross profit margin rose by 3.7 percentage points to 35.1% for 2019, reflecting the increase in operating revenue from the carriers' networks which commanded a higher gross profit margin as a percentage of total revenue and an improved gross profit margin for carriers' networks.

Cost of sales of the Group's carriers' networks for 2019 amounted to RMB39,701.5 million, a 13.6% increase compared to the same period last year. Gross profit margin was 40.4%, compared to 38.8% for the same period last year. The increase in gross profit margin for carriers' networks reflected mainly the increase in gross profit margin for FDD system equipment in the domestic and international markets.

Cost of sales of the Group's government and corporate business for 2019 amounted to RMB6,636.1 million, a 0.8% decrease compared to the same period last year. The relevant gross profit margin was 27.5%, unchanged from 27.5% for the same period last year.

Cost of sales of the Group's consumer business for 2019 amounted to RMB12,540.4 million, decreasing by 26.3% compared to the same period last year. The relevant gross profit margin was 16.4%, versus 11.4% for the same period last year. The increase in gross profit margin for the consumer business reflected mainly the increase in gross profit margin for home terminals in the domestic as well as international markets.

OTHER INCOME AND GAINS

Other income and gains of the Group for 2019 amounted to RMB6,816.1 million, representing a 47.2% increase compared to RMB4,630.4 million for 2018, attributable mainly to the recognition of relevant income by the Company as disclosed in “UPDATE ON DISCLOSEABLE TRANSACTION SUPPLEMENTAL AGREEMENT TO THE FRAMEWORK AGREEMENT FOR ENTRUSTMENT OF DEVELOPMENT, CONSTRUCTION, SALES AND OPERATION” published on 11 July 2019.

RESEARCH AND DEVELOPMENT COSTS

The Group’s research and development costs for 2019 increased by 15.1% to RMB12,547.9 million from RMB10,905.6 million for 2018, or by 1.0 percentage point from 12.8% for 2018 to 13.8% for 2019 as a percentage of operating revenue. The Group continued to invest in core technologies such as 5G wireless, core network, bearer, access and chips during the period.

SELLING AND DISTRIBUTION EXPENSES

The Group’s selling and distribution expenses for 2019 decreased by 13.4% to RMB7,868.7 million from RMB9,084.5 million for 2018, attributable mainly to the reclassification of the Group’s selling and distribution expenses relating to projects to cost of sales and strengthened control over selling expenses for the period. Selling and distribution expenses as a percentage of operating revenue decreased by 1.9 percentage points to 8.7%, compared to 10.6% for 2018.

ADMINISTRATIVE EXPENSES

Administrative expenses of the Group for 2019 increased by 28.8% to RMB5,289.1 million, as compared to RMB4,106.2 million for 2018. Such increase was attributable mainly to the increase in the Group’s legal fees for the period. Administrative expenses as a percentage of operating revenue increased by 1.0 percentage point to 5.8% as compared to 4.8% for 2018.

IMPAIRMENT LOSSES ON FINANCIAL AND CONTRACT ASSETS, NET

The Group’s impairment losses on financial and contract assets for 2019 amounted to RMB2,228.4 million, decreasing by 39.0% compared to RMB3,654.9 million for 2018. This was mainly attributable to the decrease in the Group’s provision for bad debt and trade receivables for the period.

LOSS ON DISPOSAL OF FINANCIAL ASSETS MEASURED AT AMORTISED COST

The Group recorded loss on disposal of financial assets measured at amortised cost for 2019 amounting to RMB209.4 million, decreasing by 34.6% compared to RMB320.3 million for 2018. The decrease reflected mainly the decrease in interests relating to the Group's international factoring without recourse for the period.

OTHER EXPENSES

Other expenses primarily include loss on impairment of assets, non-operating expenses and loss from fair-value change. Other expenses of the Group for 2019 was RMB975.7 million, representing a decrease of 89.1% from RMB8,978.3 million for 2018, which was attributable primarily to the payment by the Company during the same period last year of the USD1 billion penalty described in the "INSIDE INFORMATION ANNOUNCEMENT AND RESUMPTION OF TRADING" published on 12 June 2018.

PROFIT FROM OPERATING ACTIVITIES

The Group's profit from operating activities for 2019 amounted to RMB9,555.5 million, as compared to RMB-5,544.5 million for 2018, while operating profit margin was 10.5%, attributable primarily to the payment by the Company during the same period last year of the USD1 billion penalty described in the "INSIDE INFORMATION ANNOUNCEMENT AND RESUMPTION OF TRADING" published on 12 June 2018 and operating losses and loss provisions arising from the matter described in the "INSIDE INFORMATION ANNOUNCEMENT" published by the Company on 9 May 2018.

FINANCE COSTS

Finance costs of the Group for 2019 amounted to RMB1,718.2 million, increasing by 70.4% compared to RMB1,008.4 million for 2018, reflecting mainly the increase in interest expenses in line with the increase in financing of the Group for the period.

INCOME TAX EXPENSE

The Group's income tax expense for 2019 was RMB1,385.0 million, increasing by 445.5% as compared to RMB-400.9 million for 2018, reflecting mainly the Company's recognition of deferred income tax deductible against loss for the same period last year.

PROFIT ATTRIBUTABLE TO NON-CONTROLLING INTERESTS

The Group's profit attributable to non-controlling interests for 2019 amounted to RMB280.2 million, representing an increase of RMB662.8 million compared to RMB-382.6 million for 2018, which was attributable mainly to profit reported by certain subsidiaries of the Group for the period.

OTHER COMPREHENSIVE INCOME

Other comprehensive income of the Group for 2019 amounted to RMB49.4 million, compared to RMB-905.3 million for 2018, which was attributable mainly gains for the period on translation of the Group's statements denominated in foreign currencies owing to exchange rate fluctuations versus losses for the same period last year.

DEBT-EQUITY RATIO AND THE BASIS OF CALCULATION

Debt-equity ratio is calculated by dividing interest-bearing liabilities by the sum of interest-bearing liabilities and equity (including non-controlling interests).

The Group's debt-equity ratio for 2019 was 50.3%, increasing by 3.6 percentage points as compared to 46.7% for 2018, reflecting mainly the increase in the Group's interest-bearing liabilities for the period.

LIQUIDITY AND CAPITAL RESOURCES

In 2019, the Group's development funds were financed mainly by cash generated from its operations and bank loans. The Group's cash requirements related primarily to production and operating activities, repayment of due liabilities, capital expenditure, interest payments and other contingent cash requirements. The Group has adopted an appropriate capital management policy and sufficient funds are in place to meet its debt repayment obligations as due, capital expenditure and the requirements of normal production operations.

Cash and cash equivalents of the Group as of 31 December 2019 amounted to RMB28,505.8 million held mainly in RMB and to a smaller extent in USD, EUR, HKD and other currencies.

OPERATING ACTIVITIES

The Group reported net cash inflow from operating activities of RMB4,903.4 million for 2019, compared to net outflow of RMB9,913.0 million for 2018, reflecting mainly year-on-year increase in cash received from sales of goods and provision of services by RMB4,974.6 million, decrease in tax refund received by RMB1,921.4 million, increase in other cash receipts relating to operating activities by RMB719.1 million, decrease in cash paid for the purchase of goods and services by RMB1,689.7 million, decrease in cash payments to and on behalf of employees by RMB5,186.8 million, increase in payments of tax expenses by RMB1,680.8 million, and decrease in other cash payments relating to operating activities by RMB7,693.9 million.

INVESTING ACTIVITIES

The Group's net cash outflow from investing activities was RMB6,120.2 million for 2019, compared to RMB2,431.3 million for 2018, reflecting mainly the increase in cash payments for the Group's repayment of SIHC joint venture amounts and the purchase of fixed assets, intangible assets and other long-term assets for the period.

FINANCING ACTIVITIES

The Group's net cash inflow from financing activities for 2019 was RMB8,362.0 million, compared to RMB3,051.3 million for 2018, reflecting mainly the increase in cash received from the Group's drawdown of loans for the period.

CAPITAL EXPENDITURE

The Group's capital expenditure for 2019 amounted to RMB5,501.7 million, compared to RMB4,700.8 million for 2018, which was mainly applied in the new energy commercial vehicle production base, Shanghai R&D Centre Phase III, ZTE high-efficiency lithium battery project Phase I and purchase of machinery and equipment.

Credit facilities available to the Group included long-term and short-term bank loans, which were mainly used as working capital. The Group's RMB short-term and long-term bank loans subject to fixed interest rates amounted to RMB19,328.7 million and RMB3,341.5 million respectively. Other RMB loans were subject to floating interest rates. Loans in TRY, USD and EUR subject to fixed interest rates in aggregate amounted to the equivalent of approximately RMB2,039.7 million and the remaining TRY, USD and EUR loans were subject to floating interest rates. The Group's borrowings were mainly denominated in USD and EUR, apart from certain RMB loans.

The Group's consolidated financial statements are expressed in RMB. The exchange rate risk of the Group arises mainly from foreign exchange exposures associated with the sales, purchases and financing settled in currencies other than RMB and the volatility of exchange rates, which might affect the operations of the Group. The Group is engaged in ongoing efforts to strengthen exposure management and seeks to mitigate foreign exchange risks through the use of measures such as business strategic guidance, internal settlement management, financing mix optimisation and value-protected derivative products on exchange rates. The Group also strengthens liquidity risk management in countries practicing exchange control and facilitates RMB pricing and settlement for overseas projects to lower its exchange risks in the long term.

The Group's bank loans in 2019 increased by RMB9,433.2 million as compared to 2018, which were mainly applied to replenish its working capital.

MARKET RISKS

For details of the Group’s exposure to market risks, please refer to the section 7.5.2 of this announcement.

7.4 Proposal for profit distribution of 2019

Audited net profit attributable to holders of ordinary shares of the Company for the year 2019 calculated in accordance with PRC ASBEs amounted to approximately RMB7,775,879,000. Together with undistributed profit of approximately RMB-3,114,829,000 carried forward at the beginning of the year and after provision for statutory surplus reserves of approximately RMB452,214,000, profit available for distribution to shareholders amounted to approximately RMB4,208,836,000.

Audited net profit attributable to holders of ordinary shares of the Company for the year 2019 calculated in accordance with HKFRSs amounted to approximately RMB7,935,014,000. Together with undistributed profit of approximately RMB-4,167,396,000 carried forward at the beginning of the year and after provision of statutory surplus reserves of approximately RMB452,214,000, profit available for distribution to shareholders amounted to approximately RMB3,315,404,000.

In accordance with MOF requirements and the Articles of Association, profit available for distribution shall be the lower of profit available for distribution as calculated in accordance with PRC ASBEs and that calculated in accordance with HKFRSs. Therefore the amount of profit available for distribution is approximately RMB3,315,404,000. The Board of Directors of the Company has recommended:

The profit distribution proposal for 2019: distribution of RMB2 in cash (before tax) for every 10 shares to all shareholders based on the total share capital (including A shares and H shares) as at the record date for profit distribution and dividend payment. In the event of changes in the Company's total share capital after the announcement of the Company's profit distribution proposal for 2019 but before its implementation, the total amount of distribution shall be readjusted in accordance with the law on the basis of the total share capital (including A shares and H shares) as at the record date for profit and dividend distribution for the purpose of the profit distribution proposal for 2019 according to the existing proportion for distribution. The aforesaid matter is subject to consideration and approval at the general meeting.

The Company expects to pay the dividend to shareholders on 12 August 2020.

7.5 Business outlook of 2020 and risk exposures

7.5.1 Business outlook of 2020

With the successive commencement of 5G commercial applications among leading global carriers in 2019, global 5G development is expected to roll out in full gear in the next 5 years, underpinned by a rapidly maturing 5G industry chain and vigorous supply of innovative 5G applications driving a new boom for the communications industry. First of all, 5G will continue to benefit from the volume of mobile data, as new applications such as ultra-HD video and AR/VR are poised to provide supreme experience to users, while mobile data consumption is expected to sustain strong growth. Meanwhile, the integration of infrastructure for the intelligent Internet of Everything built on the back of 5G, in a development no less significant than the birth of the global Internet in the 1990s, is expected to come initially into shape in the next 5 years. The industrial applications of 5G, such as automated driving and intelligent manufacturing to name but a few, will give rise to new businesses, models and growth opportunities beyond imagination in the ICT sector.

The development of 5G has been top on the agenda across major countries and regions in the world. According to GSA, as at January 2020, 356 carriers from 121 countries and regions have been variously engaged in the planning, testing, deployment or commercial application of 5G services.

In connection with carriers' networks, the Group will continue to play a pivotal role in the innovation of 5G technologies and applications as a first-quadrant 5G player. We will increase our investment in core technologies such as chip, algorithm and network architecture to maintain our technological edge and facilitate the provision of end-to-end solutions that would enable carriers to build highly competitive 5G networks in a speedy manner. Meanwhile, we will work with industry leaders of various sectors to develop innovative 5G applications as part of a mutually beneficial 5G business ecosphere built through cooperation.

In connection with the government and corporate business, the Group will focus on the four traditional key market sectors of energy, transportation, government affair and finance as it seizes new opportunities presented by changing core products and 5G network construction to incubate business channels and assist in further digital transformation in these sectors.

In connection with the consumer business, the Group will seize opportunities for development in the markets for 5G terminals and multi-format terminals. We will increase investment in brand building in relation to key country markets, while making efforts to unveil, innovate, consolidate, explore and broaden major pathways for the generation of commercial value through cooperation with upstream as well as downstream partners along the industry chain, with a view to building a full-scenario smart experience and value chain for consumers.

Year 2020 will mark the beginning of a period of strategic development for the Group aiming at the attainment of qualitative growth. In terms of corporate operations, we look to sustain revenue growth, sound profitability, ample liquidity and a reasonable gearing ratio to ensure the soundness of our operations. In terms of the optimisation of market landscape, we will focus on high-worth countries and markets and seek to increase our market shares therein. In terms of product R&D, we will remain committed to the investment in core products, such as 5G and bearer products, and chips to establish our leading position in key technologies and enhance product assurance for the benefit of business sustainability, while expediting digital transformation of the corporation to ensure ongoing progress in the incubation of innovative businesses. In terms of management processes, compliance control and regulation over operations will be enhanced, so as to foster a positive image in the international market and win greater trust among domestic and overseas clients. In terms of corporate value, we will strive for greater trust on the part of shareholders and actively seek to expand financing channels, so as to facilitate stable growth in corporate value through the implementation of strategic goals and value management.

7.5.2 Risk Exposures

(1) Country risks

Given the complex nature of international economic and political conditions and the presence of the Group's business and branch organisations in over 100 countries, as well as the differences in macro-economy, policy and regulation and political and social backgrounds among the countries where the Group's businesses are operated, the Group will continue to be exposed to risks relating to legal compliance, taxation, exchange rates and political developments (such as war and domestic unrest), which might affect the operations of the Group. The Group ensures compliance primarily through the establishment of a complete compliance management regime to identify and comply with trade and taxation policy requirements in these countries (including export control and GDPR (General Data Protection Regulation)); we also work with independent professional organisations to analyse and identify country risks. We take out necessary export insurance for businesses in regions with higher evaluated risks, and we also resort to financing to avoid possible losses.

(2) Risk associated with intellectual property rights

The Group has always attached great importance to product technology research and development as well as the protection and management of intellectual property rights. Trademarks of the Group's products and services are all registered, and such products and services are all protected under relevant patent rights. While the Group has adopted highly stringent measures to protect its intellectual property rights, potential disputes over intellectual property rights between the Group and other telecommunications equipment manufacturers, franchisee companies and carriers

under partnerships with the Group cannot be totally ruled out. The Group will continue to drive the solution of related issues with an open-minded, cooperative and mutually beneficial approach.

(3) *Exchange rate risks*

The Group's consolidated financial statements are expressed in RMB. The exchange rate risk of the Group arises mainly from foreign exchange exposures associated with the sales, purchases and financing settled in currencies other than RMB and the volatility of exchange rates, which might affect the operations of the Group. The Group adopts ongoing measures to strengthen exposure management and seeks to minimise exposures through initiatives such as business strategic guidance, internal settlement management, financing mix design and value-protected derivative exchange instruments. The Group has also strengthened liquidity risk management in countries practicing exchange control and endeavoured to facilitate RMB pricing and settlement for overseas projects to lower its exchange risks in the long term.

(4) *Interest rate risk*

The interest rate risk of the Group is mainly associated with interest-bearing liabilities. Fluctuations in the interest rates of RMB or foreign currencies will result in changes in the total amount of interest payable by the Group and will therefore affect the Group's profitability. The Group seeks to lower its interest rate risk mainly by managing the total amount and structure of its interest bearing liabilities. Control over the total amount of interest-bearing liabilities is mainly achieved by improving the cash turnover efficiency and increasing the free cash flow of the Group. Structured management of interest-bearing liabilities is achieved mainly through portfolio control of a mixture of long-term/short-term domestic and overseas loans denominated in RMB or foreign currencies with fix or floating interests, complemented by derivative instruments such as interest rate swaps, sought from a diverse range of low-cost financing channels in the global market taking into account the trends of market changes.

(5) *Customer credit risk*

The Group provides one-stop communications solutions to its customers. With the rapid expansion of its business, the Group is serving a large customer base with differing credit status, and its business will inevitably be affected by the varied credit profiles of these customers. The Group seeks to mitigate the aforesaid impact mainly by identifying and managing credit risks through the adoption of internal credit management measures, such as customer credit search, customer credit rating, customer credit limit management, overall risk control and credit control against customers with faulty payment records, and by transferring credit risks through the purchase of credit insurance and appropriate financial instruments.

8. COMPLIANCE OF THE CORPORATE GOVERNANCE CODE AND OTHER MATTERS

8.1 Compliance of the Corporate Governance Code

As of 31 December 2019, the Company was in full compliance with the principles and code provisions of the Corporate Governance Code set out in Appendix 14 of the Hong Kong Listing Rules.

8.2 Securities transactions by Directors and Supervisors

The Directors and Supervisors of the Company confirmed that the Company has adopted the Model Code. Upon specific enquiry with all Directors and Supervisors of the Company, the Company is not aware of any information that reasonably indicates non-compliance with code provisions set out in the Model Code by Director or Supervisor during the year.

9. FINANCIAL REPORTS

9.1 The Audit Committee of the Company has reviewed, in association with the management, the accounting principles and standards adopted by the Group, and has investigated issues relating to auditing, risk management and internal control and financial reporting, including the review of the consolidated and company balance sheets at 31 December 2019 and the consolidated and company income statements, statements of changes in equity and cash flow statements for the year ended 31 December 2019 prepared by the Group in accordance with PRC ASBEs and the consolidated and company statement of financial position at 31 December 2019 and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year ended 31 December 2019 prepared in accordance with HKFRSs.

9.2 Audit opinion

The consolidated and company balance sheets as at 31 December 2019, the consolidated and company income statements, statements of changes in equity and cash flow statements for the year ended 31 December 2019 prepared by the Group in accordance with PRC ASBEs have been audited by Ernst & Young Hua Ming LLP, who has issued a standard auditors' report with unqualified opinion (Ernst & Young Hua Ming (2020) SHENZI NO.60438556_H01).

Ernst & Young issued an unqualified auditors' report following auditing in connection with the consolidated statement of financial position as at 31 December 2019, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year ended 31 December 2019 prepared by the Group in accordance with HKFRSs.

1. BASIS OF PREPARATION

These financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) (which include all Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards (“HKASs”) and Interpretations) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”), accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention, except for derivative financial instruments, investment properties and certain equity investments which have been measured at fair value. These financial statements are presented in Renminbi (“RMB”) and all values are rounded to the nearest thousand except when otherwise indicated.

Basis of consolidation

The consolidated financial statements include the financial statements of the Group for the year ended 31 December 2019. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

When the Company has, directly or indirectly, less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group’s voting rights and potential voting rights.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the ordinary equity holders of the parent of the Group and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises (i) the assets (including goodwill) and liabilities of the subsidiary, (ii) the carrying amount of any non-controlling interest and (iii) the cumulative translation differences recorded in equity; and recognises (i) the fair value of the consideration received, (ii) the fair value of any investment retained and (iii) any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

2. CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The Group has adopted the following new and revised HKFRSs for the first time for the current year's financial statements.

Amendments to HKFRS 9	<i>Prepayment Features with Negative Compensation</i>
HKFRS 16	<i>Leases</i>
Amendments to HKAS 19	<i>Plan Amendment, Curtailment or Settlement</i>
Amendments to HKAS 28	<i>Long-term Interests in Associates and Joint Ventures</i>
HK(IFRIC)-Int 23	<i>Uncertainty over Income Tax Treatments</i>
Annual Improvements to HKFRSs 2015–2017 Cycle	<i>Amendments to HKFRS 3, HKFRS 11, HKAS 12 and HKAS 23</i>

Except for the amendments to HKFRS 9 and HKAS 19, and Annual Improvements to HKFRSs 2015–2017 Cycle, which are not relevant to the preparation of the Group's financial statements, the nature and the impact of the new and revised HKFRSs are described below:

- (a) HKFRS 16 replaces HKAS 17 Leases, HK(IFRIC)-Int 4 Determining whether an Arrangement contains a Lease, HK(SIC)-Int 15 Operating Leases — Incentives and HK(SIC)-Int 27 Evaluating the Substance of Transactions Involving the Legal Form of a Lease. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model to recognise and measure right-of-use assets and lease liabilities, except for certain recognition exemptions. Lessor accounting under HKFRS 16 is substantially unchanged from HKAS 17. Lessors will continue to classify leases as either operating or finance leases using similar principles as in HKAS 17.

The Group has adopted HKFRS 16 using the modified retrospective method with the date of initial application of 1 January 2019. Under this method, the standard has been applied retrospectively with the cumulative effect of initial adoption recognised as an adjustment to the opening balance of retained profits at 1 January 2019, and the comparative information for 2018 was not restated and continued to be reported under HKAS 17 and related interpretations.

New definition of a lease

Under HKFRS 16, a contract is, or contains, a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration. Control is conveyed where the customer has both the right to obtain substantially all of the economic benefits from use of the identified asset and the right to direct the use of the identified asset. The Group elected to use the transition practical expedient allowing the standard to be applied only to contracts that were previously identified as leases applying HKAS 17 and HK(IFRIC)-Int 4 at the date of initial application. Contracts that were not identified as leases under HKAS 17 and HK(IFRIC)-Int 4 were not reassessed. Therefore, the definition of a lease under HKFRS 16 has been applied only to contracts entered into or changed on or after 1 January 2019.

As a lessee — Leases previously classified as operating leases

Nature of the effect of adoption of HKFRS 16

The Group has lease contracts for various items of property, machinery, motor vehicles and other equipment. As a lessee, the Group previously classified leases as either finance leases or operating leases based on the assessment of whether the lease transferred substantially all the rewards and risks of ownership of assets to the Group. Under HKFRS 16, the Group applies a single approach to recognise and measure right-of-use assets and lease liabilities for all leases, except for two elective exemptions for leases of low-value assets (elected on a lease-by-lease basis) and leases with a lease term of 12 months or less (“short-term leases”) (elected by class of underlying asset). Instead of recognising rental expenses under operating leases on a straight-line basis over the lease term commencing from 1 January 2019, the Group recognises depreciation (and impairment, if any) of the right-of-use assets and interest accrued on the outstanding lease liabilities (as finance costs).

Impact on transition

Lease liabilities at 1 January 2019 were recognised based on the present value of the remaining lease payments, discounted using the incremental borrowing rate at 1 January 2019 and included in interest-bearing bank and other borrowings. The right-of-use assets for most leases were measured at the amount of the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to the lease recognised in the statement of financial position immediately before 1 January 2019.

All these assets were assessed for any impairment based on HKAS 36 on that date. The Group elected to present the right-of-use assets separately in the statement of financial position. This includes the lease assets recognised previously under finance leases of RMB21,174 that were reclassified from property, plant and equipment.

For the leasehold land and buildings (that were held to earn rental income and/or for capital appreciation) previously included in investment properties and measured at fair value, the Group has continued to include them as investment properties at 1 January 2019. They continue to be measured at fair value applying HKAS 40.

The Group has used the following elective practical expedients when applying HKFRS 16 at 1 January 2019:

- Applying the short-term lease exemptions to leases with a lease term that ends within 12 months from the date of initial application;
- Using hindsight in determining the lease term where the contract contains options to extend/terminate the lease;

As a lessee — Leases previously classified as operating leases

The Group did not change the initial carrying amounts of recognised assets and liabilities at the date of initial application for leases previously classified as finance leases. Accordingly, the carrying amounts of the right-of-use assets and the lease liabilities at 1 January 2019 were the carrying amounts of the recognised assets and liabilities (i.e., finance lease payables) measured under HKAS 17.

Financial impact at 1 January 2019

Arising from the adoption of HKFRS 16 at 1 January 2019 was as follows:

	Increase/ (decrease) <i>RMB'000</i> (Unaudited)
Assets	
Increase in right-of-use assets	5,972,820
Decrease in prepaid land lease payments	<u>(5,020,556)</u>
Increase in total assets	<u><u>952,264</u></u>
Liabilities	
Increase in lease liabilities	<u>952,264</u>
Increase in total liabilities	<u><u>952,264</u></u>

The lease liabilities as at 1 January 2019 reconciled to the operating lease commitments as at 31 December 2018 are as follows:

	<i>RMB'000</i> (Unaudited)
Operating lease commitments as at 31 December 2018	1,025,375
Less:	
Commitments relating to short-term leases and those leases with a remaining lease term ending on or before 31 December 2019	146,023
Add:	
Payments for optional extension periods not recognised as at 31 December 2018	<u>164,962</u>
	<u><u>1,044,314</u></u>
 Weighted average incremental borrowing rate as at 1 January 2019	 <u>5.66%</u>
 Lease liabilities as at 1 January 2019	 <u><u>952,264</u></u>

- (b) Amendments to HKAS 28 clarify that the scope exclusion of HKFRS 9 only includes interests in an associate or joint venture to which the equity method is applied and does not include long-term interests that in substance form part of the net investment in the associate or joint venture, to which the equity method has not been applied. Therefore, an entity applies HKFRS 9, rather than HKAS 28, including the impairment requirements under HKFRS 9, in accounting for such long-term interests. HKAS 28 is then applied to the net investment, which includes the long-term interests, only in the context of recognising losses of an associate or joint venture and impairment of the net investment in the associate or joint venture. The Group assessed its business model for its long-term interests in associates and joint ventures upon adoption of the amendments on 1 January 2019 and concluded that the long-term interests in associates and joint ventures continued to be measured at amortised cost in accordance with HKFRS 9. Accordingly, the amendments did not have any impact on the financial position or performance of the Group.
- (c) HK(IFRIC)-Int 23 addresses the accounting for income taxes (current and deferred) when tax treatments involve uncertainty that affects the application of HKAS 12 (often referred to as “uncertain tax positions”). The interpretation does not apply to taxes or levies outside the scope of HKAS 12, nor does it specifically include requirements relating to interest and penalties associated with uncertain tax treatments. The interpretation specifically addresses (i) whether an

entity considers uncertain tax treatments separately; (ii) the assumptions an entity makes about the examination of tax treatments by taxation authorities; (iii) how an entity determines taxable profits or tax losses, tax bases, unused tax losses, unused tax credits and tax rates; and (iv) how an entity considers changes in facts and circumstances. Upon adoption of the interpretation, the Group considered whether it has any uncertain tax positions arising from the transfer pricing on its intergroup sales. Based on the Group's tax compliance and transfer pricing study, the Group determined that it is probable that its transfer pricing policy will be accepted by the tax authorities. Accordingly, the interpretation did not have any impact on the financial position or performance of the Group.

3. ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS

The Group has not applied the following new and revised HKFRSs, that have been issued but are not yet effective, in these financial statements.

Amendments to HKFRS 3	<i>Definition of a Business</i> ¹
Amendments to HKFRS 9, HKAS 39 and HKFRS 7	<i>Interest Rate Benchmark Reform</i> ¹
Amendments to HKFRS 10 and HKAS 28 (2011)	<i>Sale or Contribution of Assets between an Investor and its Associate or Joint Venture</i> ³
HKFRS 17	<i>Insurance Contract</i> ²
Amendments to HKAS 1 and HKAS 8	<i>Definition of Material</i> ²

¹ Effective for annual periods beginning on or after 1 January 2020

² Effective for annual periods beginning on or after 1 January 2021

³ No mandatory effective date yet determined but available for adoption

Further information about those HKFRSs that are expected to be applicable to the Group is described below.

Amendments to HKFRS 3 clarify and provide additional guidance on the definition of a business. The amendments clarify that for an integrated set of activities and assets to be considered a business, it must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create output. A business can exist without including all of the inputs and processes needed to create outputs. The amendments remove the assessment of whether market participants are capable of acquiring the business and continue to produce outputs. Instead, the focus is on whether acquired inputs and acquired substantive processes together significantly contribute to the ability to create outputs. The amendments have also narrowed the definition of outputs to focus on goods or services provided

to customers, investment income or other income from ordinary activities. Furthermore, the amendments provide guidance to assess whether an acquired process is substantive and introduce an optional fair value concentration test to permit a simplified assessment of whether an acquired set of activities and assets is not a business. The Group expects to adopt the amendments prospectively from 1 January 2020. Since the amendments apply prospectively to transactions or other events that occur on or after the date of first application, the Group will not be affected by these amendments on the date of transition.

Amendments to HKFRS 9, HKAS 39 and HKFRS 7 address the effects of interbank offered rate reform on financial reporting. The amendments provide temporary reliefs which enable hedge accounting to continue during the period of uncertainty before the replacement of an existing interest rate benchmark. In addition, the amendments require companies to provide additional information to investors about their hedging relationships which are directly affected by these uncertainties. The amendments are effective for annual periods beginning on or after 1 January 2020. Early application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

Amendments to HKFRS 10 and HKAS 28 (2011) address an inconsistency between the requirements in HKFRS 10 and in HKAS 28 (2011) in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The amendments require a full recognition of a gain or loss when the sale or contribution of assets between an investor and its associate or joint venture constitutes a business. For a transaction involving assets that do not constitute a business, a gain or loss resulting from the transaction is recognised in the investor's profit or loss only to the extent of the unrelated investor's interest in that associate or joint venture. The amendments are to be applied prospectively. The previous mandatory effective date of amendments to HKFRS 10 and HKAS 28 (2011) was removed by the HKICPA in January 2016 and a new mandatory effective date will be determined after the completion of a broader review of accounting for associates and joint ventures. However, the amendments are available for adoption now.

Amendments to HKAS 1 and HKAS 8 provide a new definition of material. The new definition states that information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements. The amendments clarify that materiality will depend on the nature or magnitude of information. A misstatement of information is material if it could reasonably be expected to influence decisions made by the primary users. The Group expects to adopt the amendments prospectively from 1 January 2020. The amendments are not expected to have any significant impact on the Group's financial statements.

4. OPERATING SEGMENT INFORMATION

For management purposes, the Group is organised into business units based on their products and services and has three reportable operating segments as follows:

- (a) The carriers' network is focused on meeting carriers' requirements in network evolution with the provision of wireless access, wireline access, bearer networks, core networks, telecommunication software systems and services and other innovative technologies and product solutions.
- (b) The consumer business is focused on bringing experience in smart devices to customers while also catering to the requirements of industry clients through the development, production and sales of products such as smart phones, mobile data terminals, home information terminals and innovative fusion terminals, as well as the provision of related software application and value-added services.
- (c) The government and corporate business is focused on meeting requirements of government and corporate clients, providing informatization solutions for the government and corporations through the application of products such as communications networks, IOT, big data and cloud computing.

Management monitors the results of the Group's operating segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on reportable segment profit, which is a measure of adjusted profit before tax. The adjusted profit before tax is measured consistently with the Group's profit before tax except that interest income, non-lease-related finance costs, research and development costs, impairment losses, dividend income, share of profits and losses of associates and joint ventures, fair value gains/(losses) from the Group's financial instruments as well as head office and corporate expenses are excluded from the measurement.

Segment assets exclude derivative financial instruments, deferred tax assets, pledged deposits, cash and cash equivalents, investments in joint ventures and associates, other receivables, other unallocated head office and corporate assets as these assets are managed on a group basis.

Segment liabilities exclude derivative financial instruments, interest-bearing bank borrowings, lease liabilities, other payables, bonds payable, tax payable, deferred tax liabilities, provision for retirement benefits and other unallocated head office and corporate liabilities as these liabilities are managed on a group basis.

(ii) Performance obligations

Information about the Group's performance obligations is summarised below:

Sale of hardware products

The performance obligation is satisfied upon delivery of the hardware products and payment is generally due within 60 to 120 days from delivery.

Installation services

The performance obligation is satisfied when the services are rendered and accepted by customer.

A bundle of sales of equipment and installation services

The sale of equipment and installation services are highly interdependent, thus, customers cannot benefit from the equipment or installation services either on their own or together with other resources that are readily available to the customer. A bundle of sales of equipment and installation services is accounted for as a single performance obligation. The performance obligation is satisfied upon the completion of equipment and installation and acceptance.

Maintenance services

Revenue from the provision of maintenance services is recognised over the scheduled period on a straight-line basis because the customer simultaneously receives and consumes the benefits provided by the Group.

Hong Kong profits tax has been provided at the rate of 16.5% (2018: 16.5%) on the estimated assessable profits arising in Hong Kong during the year. Taxes on profits assessable elsewhere have been calculated at the rates of tax prevailing in the jurisdictions in which the Group operates, based on existing legislation, interpretations and practices in respect thereof.

Under the new enterprise income tax law of the PRC effective from 1 January 2008, the tax rate applicable to domestic-invested enterprises and foreign-invested enterprises has been standardised at 25%.

The Company was subject to an enterprise income tax rate of 15% for the years 2017 to 2019 as a national-grade hi-tech enterprise incorporated in Shenzhen.

The profit distribution proposal is subject to the approval of the Company's shareholders at the forthcoming annual general meeting.

11. EARNINGS/(LOSS) PER SHARE ATTRIBUTABLE TO ORDINARY EQUITY HOLDERS OF THE PARENT

The basic earnings/(loss) per share amount is computed by dividing the profit/(loss) for the year attributable to ordinary equity holders of the parent by the weighted average number of ordinary shares of 4,205,702,000 (2018: 4,192,672,000) in issue during the year.

The calculation of the diluted earnings/(loss) per share amount is based on the profit/(loss) for the year attributable to ordinary equity holders of the parent. The weighted average number of ordinary shares used in the calculation is the number of ordinary shares in issue during the year, as used in the basic earnings/(loss) per share calculation, and the weighted average number of ordinary shares assumed to have been issued at no consideration on the deemed exercise of all dilutive potential ordinary shares into ordinary shares.

The calculations of basic and diluted earnings per share are as follows:

	2019 <i>RMB'000</i>	2018 <i>RMB'000</i>
Earnings/(loss)		
Profit/(loss) for the year attributable to ordinary equity holders of the parent	<u>5,147,877</u>	<u>(6,983,662)</u>

Adjusted weighted average number of ordinary shares in issue	<u>4,224,051</u>	<u>4,192,672</u>

Commencing on 7 July 2019, scheme participants that had fulfilled the exercise conditions under the share option incentive scheme of the Company were entitled to exercise share options qualified as such during the first exercise period. As at 31 December 2019, 34,858,000 new ordinary shares had been issued to the scheme

participants as a result of such exercise. The weighted average number of such shares is 13,030,000 after taking into account the duration of time for such shares had been issued and outstanding.

Progress payment for telecommunication system contracts is normally made in accordance with the agreed payment schedule. The Group's trading terms with its major customers are mainly on credit, except for new customers, where payment in advance is normally required. The credit period is generally 90 days and is extendable up to one year depending on customers' creditworthiness except for certain overseas customers. The credit terms for major customers are reviewed regularly by senior management. The Group seeks to maintain strict control over its outstanding receivables and has a credit control department to minimise credit risk. Overdue balances are reviewed regularly by senior management. In view of the aforementioned, there is no significant concentration of credit risk.

An ageing analysis of the trade receivables as at the end of the reporting period, based on the invoice date and net of loss allowance, is as follows:

	2019	2018
	<i>RMB'000</i>	<i>RMB'000</i>

Impairment under HKFRS 9 for the year ended 31 December 2019

An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates are based on days past due for groupings of various customer segments with similar loss patterns (i.e., by geographical region, product type, customer type and rating, and coverage by letters of credit or other forms of credit insurance). The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions. Generally, trade receivables are written off if past due for more than one year and are not subject to enforcement activity.

Set out below is the information about the credit risk exposure on the Group's trade receivables using a provision matrix:

As at 31 December 2019

	Within 6 months	6 to 12 months	Past due 1 to 2 years	2 to 3 years	Over 3 years	Total
